It Takes a Village to Raise a Child.

National Teach Children To Save Day

Did you know...

According to Teen Research Unlimited, teenagers spent an estimated \$169 billion in 2004, an average of \$91 per week.

The Youth and Money Survey found that the majority of students ages 16 to 22 have never taken a class in personal finance.

Since the first National Teach Children to Save Day, nearly 26,000 bankers like us have reached almost 1.5 million students across the country, providing them with money skills they'll use throughout life.

We Care – We Can Help!

Here at Landmands, we take the time to go to classrooms in our local schools and help the kids to better understand:

**Saving for the future • On-line banking
Bill Pay • Credit or Debit Cards
And more!**

They're our future...together, we can make a difference.

President's Message

www.landmands.com

Recently as a staff, we held our annual planning session. If you have ever participated in a planning session you know that in order to plan for the future, you must to some degree review the past. Our review of the past revealed just how much things have changed since the opening of our Audubon office 25 years ago. We've gone from single page envelope sized notes and 9 to 3 hours, to debit cards and electronic 24/7 banking. With all those changes, it's important that you understand what hasn't changed over that time frame. Our focus. As it was then and still is today, our focus is the success of our clientele. Webster defines success this way. A degree or measure of succeeding. A favorable or desired outcome; the attainment of wealth, favor, or eminence. Lastly, one that succeeds. Whatever your definition of success is, Landmands National

Bank is focused on helping you attain it. We offer products and services designed to fit in your day-to-day journey on the road to success. We want all our customers to be successful and we feel fortunate to have played a part in the success our clients enjoyed in 2005 and look forward to more of the same in 2006.

Sincerely,

Rod A. Rowland

FUN FACTS ABOUT DOLLAR BILLS

DID YOU KNOW?

You can double fold (first forward and then backwards) a bill 4,000 times before it will tear.

HOW 'BOUT THIS

Together, the Fort Worth, Texas and Washington D.C. presses use 18 tons of ink per day.

CHECK THIS OUT

Have you ever wanted your picture on a dollar bill? Well, not in your lifetime! No. Seriously, after the Chief of the Bureau of Engraving and Printing, L.M. Clark, selected his own visage to appear on a 50-cent note, there was so much uproar that an act of Congress prohibiting the use of portraits of any living persons was passed on April 7, 1866.
